THE F&I PRODUCT BUSINESS

TO IS ABOUT
CHANGE
FOR THE
BETTER

TecAssured™ features a powerful rating engine and streamlined administration software that enable you to manage your entire portfolio - including all of your products, sales materials, contracts, rates, commissions, and claims - from one place.

Everything you need is at your fingertips on your own system and branded web portal, or it can be used as an enhancement to your existing system that will allow you to bypass the limitations of your current provider.

Use TecAssured as a stand-alone system or connect it with any industry system - whether it's proprietary or out-of-the-box administration software, menu and/or DMS software - for seamless and complete product administration.

All data is protected with secure (SSL) web hosting, backups and redundancies, and every TecAssured client has their own instance of the software as well as their own private server. Best of all, your system can be managed and customized to your exact specifications by our team of engineers, or your own developers.
