COMBINE **ALL** YOUR F&I
INDUSTRY PROVIDERS WITH

ONE

COMPLETE TECHNOLOGY SOLUTION

AREN'T YOU TIRED OF...

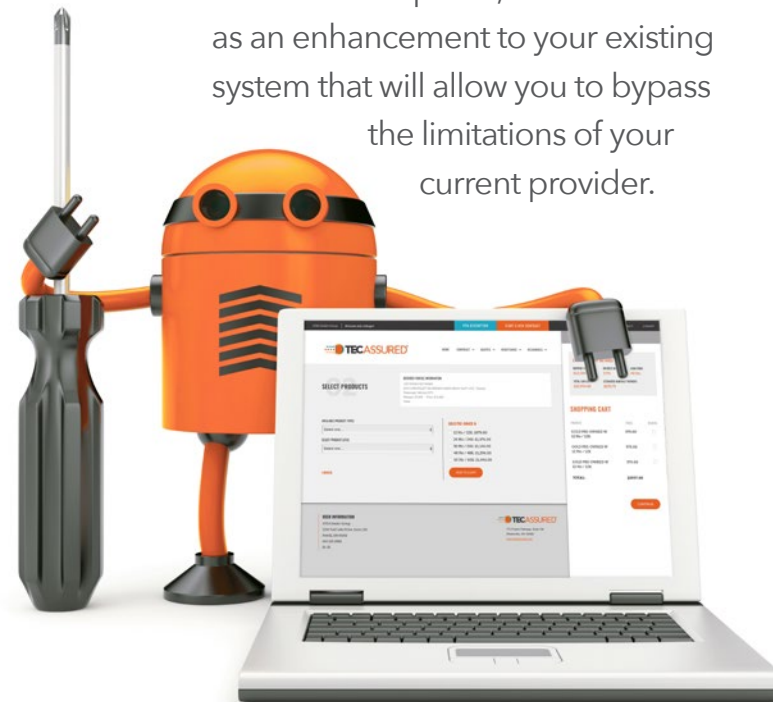

- Hours of loading rates and class guides
- Double client information input
- Separate systems based on product type
- Limited system product capabilities

Whether you want to create, test and launch new products like a bat out of hell, administer your own F&I products, warranties, or pre-paid maintenance plans, provide eRating and eContracting, streamline your business processing, or combine your products into one menu/system, **now you can with:**

TUNE-UP YOUR SALES AND STREAMLINE YOUR ENTIRE F&I PRODUCT BUSINESS!

TecAssured™ features a powerful rating engine and streamlined administration software that enables you to manage your entire portfolio - including all of your products, sales materials, contracts, rates, commissions, and claims - from one place.

Everything you need is at your fingertips on your own system and branded web portal, or it can be used as an enhancement to your existing system that will allow you to bypass the limitations of your current provider.

Use TecAssured as a stand-alone system or connect it with any industry system - whether it's proprietary or out-of-the-box administration software, menu and/or DMS software - for seamless and complete product administration.

All data is protected with secure (SSL) web hosting, backups and redundancies, and every TecAssured client has their own instance of the software as well as their own private server. Best of all, your system can be managed and customized to your exact specifications by our team of engineers, or your own developers.

AGENTS, DEALERS AND ADMINISTRATORS NATIONWIDE ARE LEVERAGING OUR INCREDIBLY FLEXIBLE TECASSURED™ SOFTWARE TO:

- Test and launch new products/programs faster
- House rates and provide eContracting
- Offer private-label or self-administered products
- Affordably design the system they want without proprietary software development
- Connect to TPAs/providers and port all of their products into one system
- Administer their own PPM, warranties and more
- Add flexibility to a current system
- Manage the entire policy life-cycle from our easy-to-use online portal
